A total of 32 fishermen; 121 keepers (only best five, 14 inches or more); a total of 434.93 lbs; mean of 3.78 fish per person; and a mean of 13.59 lbs per person.

There were about 5 small mistakes in the addition on the sheets, but only one caused a change in places (Thompson had 0.4 lb less which moved him to 8th). Great tournament, you people did a good job.
